

Stop Press - A word from the Chairman

TELECONSULT has just signed a new 2 year Master Services Agreement (MSA) with StarHub to provide 3G Project Management Services for the planned 3G/UMTS roll-out.

StarHub is one of the two Public Basic Telecommunications Service (PBTS) Licences in Singapore, the other being SingTel and is majority owned by Singapore Technologies Telemedia, Singapore Press Holdings (SPH), Media Corp, British Telecom and NTT, Japan.

Bob Marshall – Read, a seasoned and highly experienced 3G expert, will head up the StarHub Project Team and will be seconded to StarHub as the Project Director of this very prestigious project, which includes all aspects of system design, advice on vendor selection and project management and roll-out.

StarHub is under immense pressure from iDA to commence the roll-out of 3G in Singapore in 2003 and StarHub has committed to do this and complete by the end of 2004.

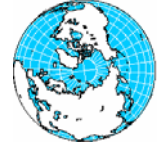

*Providing a world class project management team, in this immature technology is a challenge and StarHub has again turned to **TELECONSULT** to find a solution and been entrusted with sourcing and the supply of the necessary experienced manpower and expertise.*

About us
